Teacher's Assistant Freepro for iOS (iPad, iPhone, iPod Touch), Android, and Mac was designed by a teacher for teachers to document student behavior and habits in the classroom. It allows you to share behavior documentation with parents and administration via e-mail and also visually on a tablet or smartphone. A "lite" version is available for free (limit 5 students or 3 actions) and a full version that features unlimited students and actions is available for a minimal cost. You can add a photo (e.g., student picture) to any action for more thorough documentation.
