## Team Beanbag Toss

### Equipment

- Three hoops (for younger children, use larger hoops; to make the challenge more difficult, use smaller hoops)
- Gym floor tape to tape the hoops to the floor
- One poly spot

### Starting Position

The team is gathered behind the starting line by their poly spot with their three beanbags. There are three hoops taped to the floor in successively longer distances from the poly spot. The distances are determined by the teacher depending upon the age of the students. This challenge is meant to help teams encourage the tossers as they may continually fail to get a beanbag into the hoop.

### Our Challenge

The team must toss three beanbags into each hoop in one attempt, and each beanbag must be tossed by a different tosser. Each hoop must have three beanbags successfully tossed inside by three different tossers. If teammates are not tossing during a round, they must act as encouragers.

### Rules and Sacrifices

1. The tossers must toss from the poly spot. They may step off the poly spot with one foot while tossing.
2. Three beanbags constitute one round; all three beanbags must land in the designated hoop in one round. During that round, the beanbags must be tossed by three different tossers.
3. Team members must retrieve and bring back errant beanbags but may not touch a beanbag in flight.
4. All team members must have at least one chance to toss the beanbags; the tossers cannot be the same team members each round.
5. The team must decide by consensus who should toss twice if needed.
6. The beanbags must hit the floor inside the hoop first; they cannot slide in. Once inside the hoop, the beanbags must stay inside the hoop.
7. Beanbags cannot be tossed back to teammates at the poly spot; they must be brought back and handed to the tossers.
8. Group members cannot use last names or put-downs.
9. If two beanbags are successful and one is not, the team must only start again for that hoop; they do not have to reattempt a hoop that has already been conquered.

## Team Beanbag Toss

### Questions

1. Where do we toss from?
2. What do we have to do for each hoop?
3. If two beanbags go inside one hoop and one misses, what do we do?
4. If you are not tossing, what is your role?
5. How can we be successful in this challenge?
